THE
GUNSLINGER
BORN

LEE • ISANOVE

STEPHEN THE DARK KING TOWER

The Dark Tower is King's self-proclaimed magnum opus which he began in 1970 and completed the seventh volume of in 2004. Marvel has had the rare opportunity to combine forces with the Master Storyteller and present tales of the Gunslinger from his formative days.

On the pages to follow, the exceptional work of premier penciler Joe Lee and top painter Richard Isanove introduce you to the haunted world of Roland Deschain, the Gunslinger. Some landscapes and figures, lovingly rendered by Joe, are given the very special color treatment only Richard Isanove could provide.

The Gunslinger Born is a visual tour de force, and you're in on the ground floor of this publishing milestone. And it's all yours for free!

Enjoy!

THE PAINTED PROCESS by Richard L. Brown

1. I chose the picture I had taken a few years ago in the southwest of France,

2, and tweaked it until I obtained the 'desired color schemes.'

3. Using it as a template, I painted over the photo, covering it up with brushstrokes, smudges and splatters

4. I applied the line art,

3. blocked out all the shadow areas,

4. filled the light areas with the darkest color I could pick from the background,

7. then started modeling with mid-tones.

8. A few highlights, some touch-ups to blend line art and background, and voilà.
